Net Protector

Krypton Enterprise Backup

KryptonEB by NPAV Labs is a trusted, reliable solution for data protection, backup, and recovery for computers and servers. Designed specifically for organizational needs, KryptonEB provides fully automated backup to ensure your critical data is always secure.

KryptonEB is optimized for Windows 11 and is fully compatible with earlier Windows versions. It securely backs up your data files to local directories, internal or external hard drives, or to another computer across your network—giving you complete control and peace of mind.
